

Mercedes-Benz 230 SL (W113)

This 230 SL was released by our factory for delivery to an Italian Mercedes-Benz dealership on November 24, 1965. The car's factory build sheet confirms that the car still retains its original color configuration, namely, a Papyrus White (DB 717) exterior for both the body and hardtop, a Dark Blue (115) MB-TEX interior, Graphite Grey (6117) carpeting, and a Dark Blue (896) soft top. Further review of the factory build sheet shows that this is a 'matching numbers' car.

Of interest to note is the European-specification 3.75 rear axle ratio (US models were equipped with 4.08). This in combination with the factory 4-speed manual transmission allows for relaxed high speed cruising.

It is believed that this car was privately imported to the U.S. in the mid-1970's. Well maintained by the car's most recent owner since 1991, the owner assigned the car to Mercedes-Benz Classic for a comprehensive 2 year, six figure restoration. Recently completed, restoration included a full inspection identifying any and all needs, and subsequent restoration of mechanical systems, vehicle body including hardtop, replacement of all glass, selective chrome work, interior work, underbody paintwork and detailing.

Special attention was paid to bringing the car back to the authentic and exceptional condition as-delivered new in Italy 52 years ago, ready to be enjoyed today.

VEHICLE DETAILS

Model	230 SL	Condition category	Concours Edition
Model designation	SL - Klasse	Chassis number	on request
Series	W113	Transmission number	on request
Year of construction	1966	Engine number	on request
Odometer reading / milometer (read off)		Matching numbers	Yes
Number of previous owners		Price	230.000,- US Dollar
Initial registration		VAT can be stated separately	Yes
Location	Mercedes-Benz Classic Center USA		

TECHNICAL DETAILS

Body design	Power (HP)	150 PS
-------------	------------	--------

Cylinder capacity (cc)	2.306 ccm	Cylinder	6
(Car) door	2	Steering element	
Transmission		Gear	4
Drive		Brake (mechanism) front	
Brake (mechanism) rear		Fuel	
Acceleration	11.1 s	Top speed	200 km/h
