

Mercedes-Benz 500 SL (R 129)

This 500 SL Drivers Edition from ALL TIME STARS was delivered shortly before the model designation was changed: from June 1993, the V8 sports cars with the 235 kW (320 hp) M 119 E 50 standard-deck engine (4,973 cc capacity) were called the SL 500. This particular car, painted in blue-black metallic (DB 199) and fitted out with black leather on the inside, still bears the previous designation 500 SL. The vehicle was first registered in Germany on 23 June 1993 and has a speedometer reading of 124,950 kilometres.

This sports car has two previous owners. Most recently it was part of a collection of Mercedes-Benz SLs from various model series. ALL TIME STARS, the vehicle trading platform of Mercedes-Benz Classic, acquired the roadster from that collection.

The 500 SL has a whole range of sporty and comfort-orientated optional extras. These include auxiliary heating and automatic climate control, an electrically adjustable driver's seat with a memory function, heated seats for the driver and front passenger and additional rear seats. In addition to the locking system with an infrared remote control and the burglar and theft alarm system, the 500 SL has a tow hitch – an unusual detail for a sports car. The roadster is offered together with its original hardtop which is stored in a transport box.

The sportiness in the genes of the Mercedes-Benz SL is underlined by the Carlsson special rims from the accessories range and a retrofit lowering kit. The general type approval for the vehicle parts used for lowering the suspension is included in the documents of the 500 SL.

The car comes complete with the on-board folder with the service record, owner's manual and vehicle tool kit. Prior to sale, the car will undergo a full service in accordance with the manufacturer's specifications to be carried out by our authorised Mercedes-Benz workshop along with a MOT and exhaust emissions test (HU/AU).
